

CITRIX DOWLOAD AND INSTALLATION

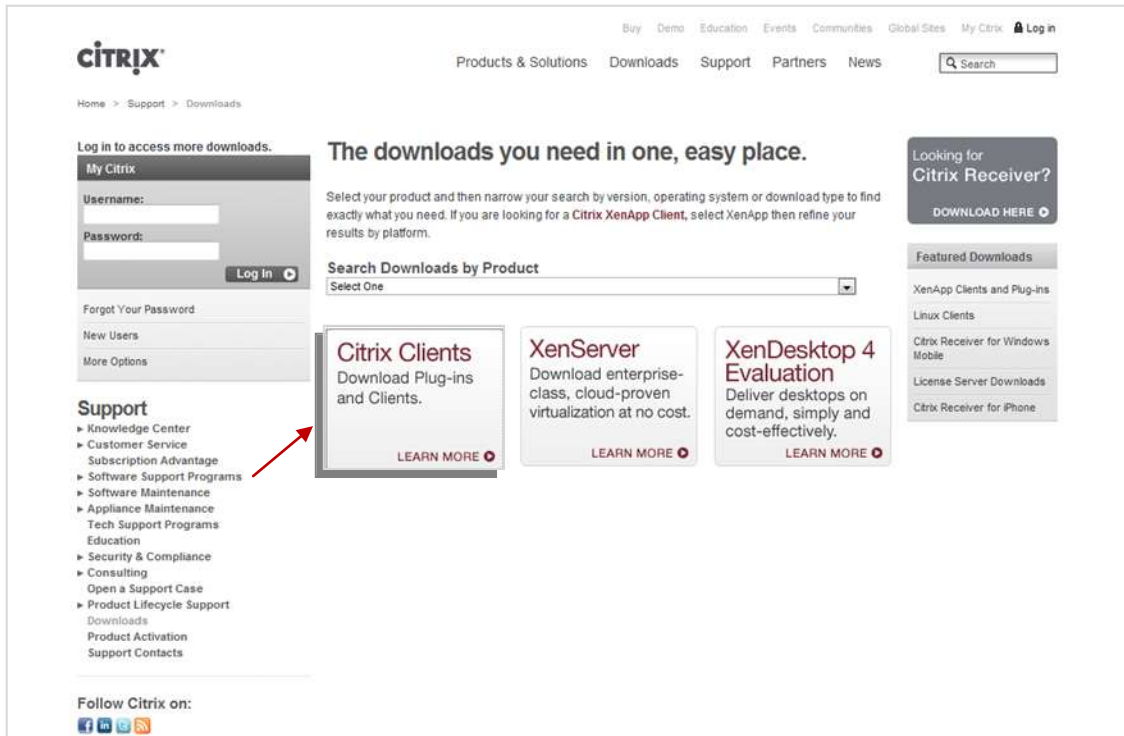

To download Citrix, follow the instructions below

If you are at a work computer or have already downloaded the Citrix online plugin, you may skip to the Citrix Instructions below (page 4):

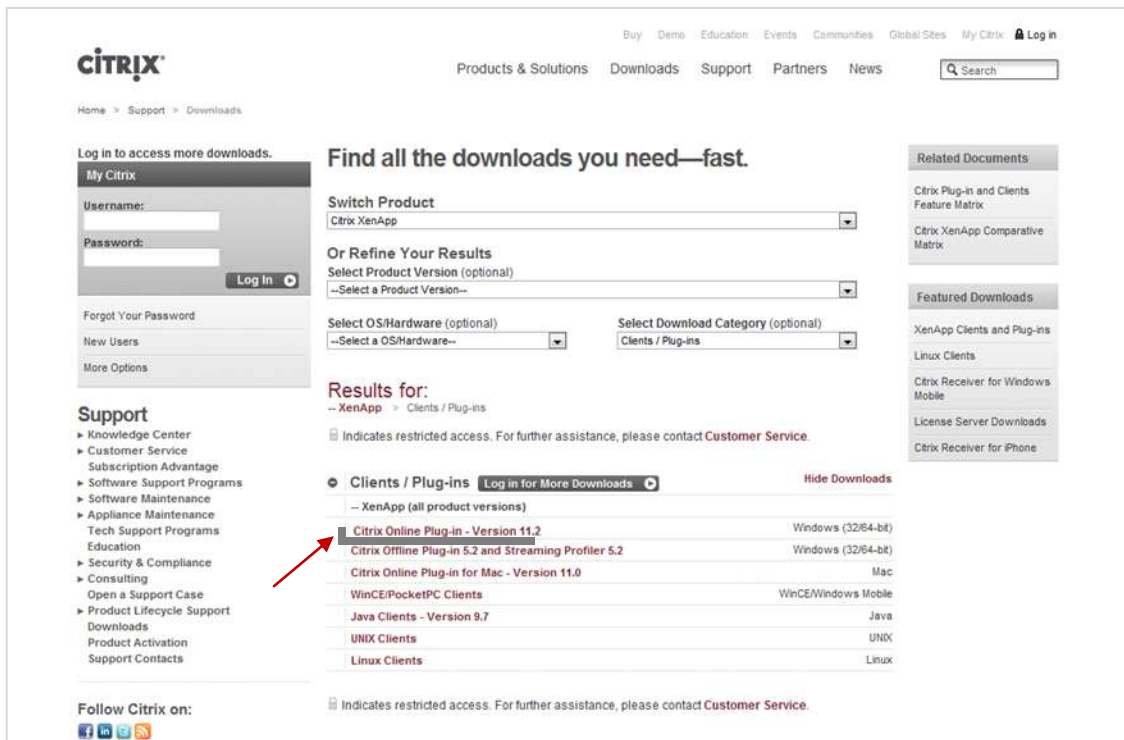

Go to www.Citrix.com then click on downloads

Click on Citrix Clients

Click on Citrix Online Plug-in – Version 12.0 (or whatever the current version may be)

Click on the download button for “Citrix Online Plug-in – Web”

The screenshot shows the Citrix website's download page for the Citrix Online Plug-in - Version 11.2. The page includes a navigation bar with links like Buy, Demo, Education, Events, Communities, Global Sites, My Citrix, and Log in. A search bar is also present. The main content area features a login section on the left, a central section with the product title and release date (9/29/2009), and a table of download links. A red arrow points to the 'Download' button for the 'Citrix Online plug-in - Web' file. The table lists two files: 'Citrix Online plug-in' (13.8 MB) and 'Citrix Online plug-in - Web' (11 MB), both available for download. The 'Citrix Online plug-in - Web' file is highlighted with a red arrow pointing to its 'Download' button.

Click on the “Click to download your file now” link

The screenshot shows a Windows Internet Explorer window titled "Download Manager - Windows Internet Exp...". The address bar shows the URL "http://download.citrix.com.edgesuite.net/4489/CitrixOnli". The main content area displays the "About the Download Manager" section, which explains that the Download Manager provides more effective and efficient file downloads than a browser. It includes a link "Click to download your file now." and a note that if the Download Manager fails to start or if the user does not accept the security certificate, they can click a link to download the file without using the download manager. The status bar at the bottom shows "Internet | Protected Mode: Off" and a zoom level of 75%.

Download Manager - Windows Internet Exp...

http://download.citrix.com.edgesuite.net/4489/CitrixOnli

About the Download Manager

The Download Manager provides for more effective, more efficient file downloads than you normally see with your browser, especially for large files or file sets. It can pause and restart downloads even if you turn your computer off and on again. You will be presented with a security warning and after you accept, the Download Manager will install and begin to download the requested file.

[Click to download your file now.](#)

Should the Download Manager fail to start, or if you do not accept the security certificate, you can [click here](#) to download the file without using the download manager.

Internet | Protected Mode: Off

75%

After installing the client, please close your browser and re-open.

To use Citrix, please see section below – Citrix Instructions.

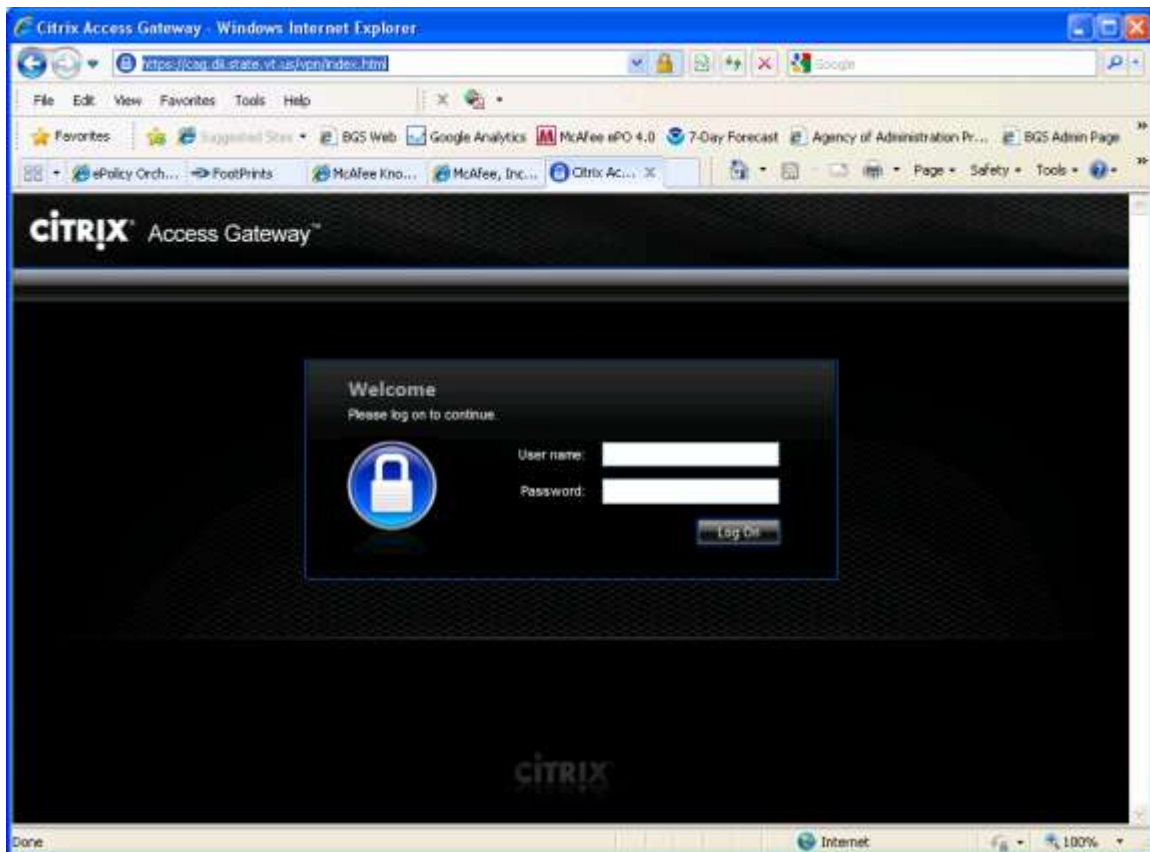

Citrix Instructions

DII is excited to provide this new technology. It's a way to provide access to our computer resources remotely. You will be able to access your files, applications, etc.

To get to our new secure site, go to this website: <https://cag.dii.state.vt.us>
(Make sure you put in the **s** after http)

A web page will come up requiring you to log in. You just need to use your login name and password. It already knows we're on VSMS.

For example:

In the username box type your username: john.smith
In the password box type your password: jspassword
Click on login.

If you are part of the VSMS environment:

User name: firstname.lastname (i.e. mary.smith)

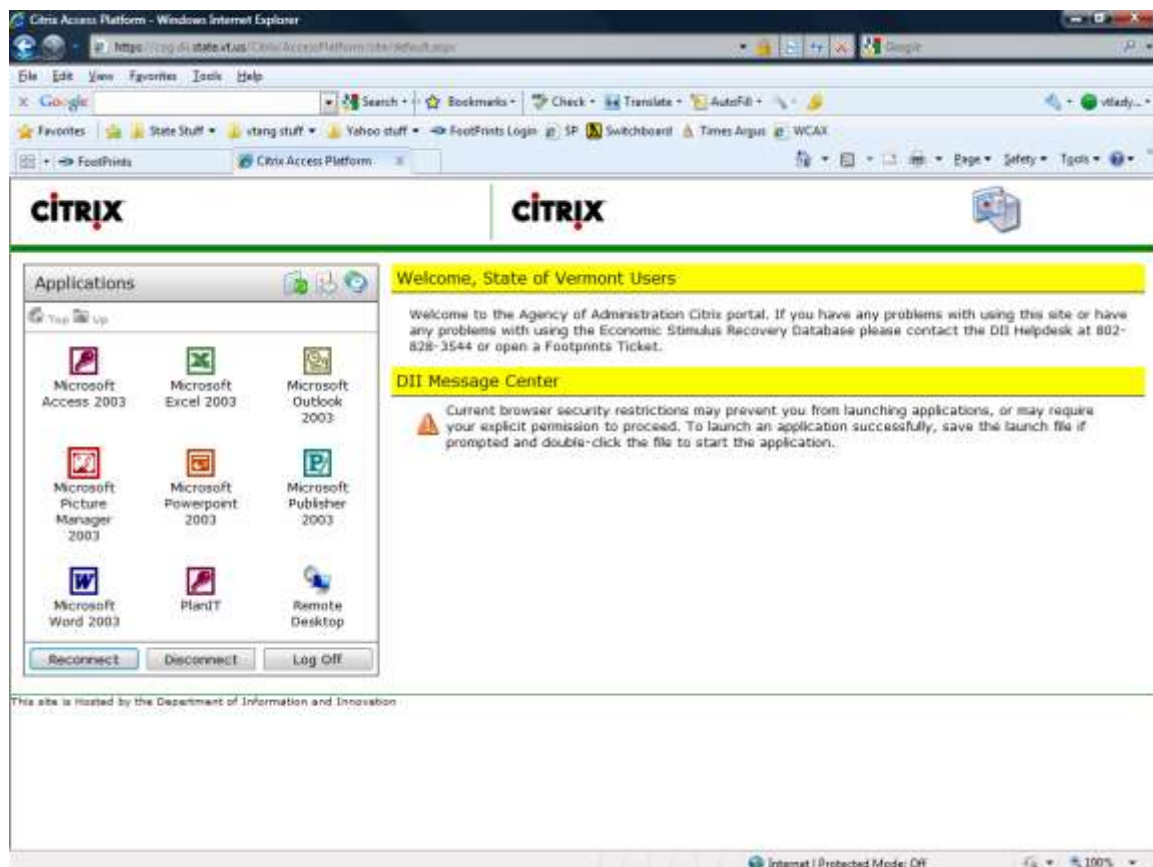

Password: Standard network password (what you use to sign into your machine to connect to the network)

If you are NOT part of the VSMS, your account has been set-up with:

User name: firstname.lastname (i.e., mary.smith)

Password: first initial last initial password (msspassword)

You should come to a screen with icons – similar to this:

Based on which groups you belong to you will have different icons. You can click on the application you need to open. Word and Excel will have access to your mapped drives. Outlook can be set up to work as well.
